

Course Materials

All our courses are offered as a package and include all required course material.

Frequently Asked Questions

Q: Will I get a hard copy book mailed to my home?

A: To keep on top of cutting-edge technology and standards, we integrated an AHA eBook Library in September 2017. We established the eBook service as a new program that allows our learners to access the ACLS provider manual electronically anytime, anywhere.

Q: What are eBooks?

A: An eBook is an electronic version of a book. An eBook allows users to read publications on any screen with a browser that supports Flash. It looks like a print book with all the layout, figures and images intact.

Q: How do I access my eBook?

A: The eBook login credentials are provided in your course communication email after successful registration. You will be provided the eBook access link, user name and password.

Q: Will our eBook work on your device?

A: You can read the eBooks online on many devices, like your iPhone, iPad, android phone, and laptop. You can also download them on a non-SHC device. When you download the eBook, you don't need access to the internet to view it.

Q: I'm having difficulty using the eBook to study for my course. What other options are available?

A: We encourage all our learners to open and view the eBook. Learners who need a hard copy of the provider manual to prepare for class can check one out through the LSTC library. Provider manuals can be checked out no more than 30 days prior to a scheduled course date and must be returned by the end of the day of attended class or an eCard will not be issued. Please email your request to lstc@stanfordhealthcare.org.
